## Advanced Diagnostic Imaging to Leave Blue Networks P, S, and E November 1, 2015

BlueCross BlueShield of Tennessee has released the following statement regarding network changes:

*Providing peace of mind to our members is our mission. We also work to ensure they have access to high quality, affordable care, so we work with doctors, hospitals and other providers to build networks that save our members money.*

*While we prefer not to make network changes, sometimes this becomes necessary. As of today, we are looking at a possible change in our network that could impact our members and their families. **We are working with Advanced Diagnostic Imaging (ADI) to agree on rates to make sure care stays affordable.** If we can't reach an agreement, they will leave our Blue Network P<sup>SM</sup>, Blue Network S<sup>SM</sup> and Blue Network E<sup>SM</sup> on **November 1, 2015.***

*We are mailing the attached letter Monday, 8/31/15 to approximately 11,000 members who received care from an ADI provider. We will also send the attached group administrator letter to impacted groups.*

*If you have questions, please contact your BlueCross sales or account executive.*

**Please find the impacted provider list attached to the newsletter email.**
